

HG E2000

HIGH SWIVEL TIP

Bulk movement made easy.

Meet the E2000 – our new, 100% electrical dumper capable of running a full working day with 2 tonnes of bulk.

This is the next step in our mission to help accelerate the use of emission-free machines on-site. It is for professionals who want to create a safer, cleaner, and quiet working environment while ensuring the same strong performance.

The E2000 can carry up to 2 tonnes, while the lithium battery allows it to run for 12 hours – more than a full working day. This makes it simple to use without worrying about emptying the battery. As a matter of fact, it charges from 20-80% in just 2,5 hours.

The total 4-Wheel Drive system provides torque on all four wheels so that you can keep spinning even when one wheel is not touching the ground.

E2000 is designed in Denmark and built at our facilities.

100% Electric

World Premiere!

Loads 2.000 kg Total 4-Wheel drive

- Lithium battery technology
- Significantly reduces noise levels
- Reduced emissions and environmental impact
- 12-hour effective run time, more than a full day's work
- Fast charging - 20 to 80% battery in 2,5 hours
- Charge anywhere with car charger: 16A power / 220v EU plug
- One-pedal driving for maximum comfort

Specifications:

L x W x H: 3975 x 1480 x 2989 cm
Weight: 2150 kg.
Volume: 892 l
Payload kg.: 2.000 kg
Unloading height: 172/120 cm

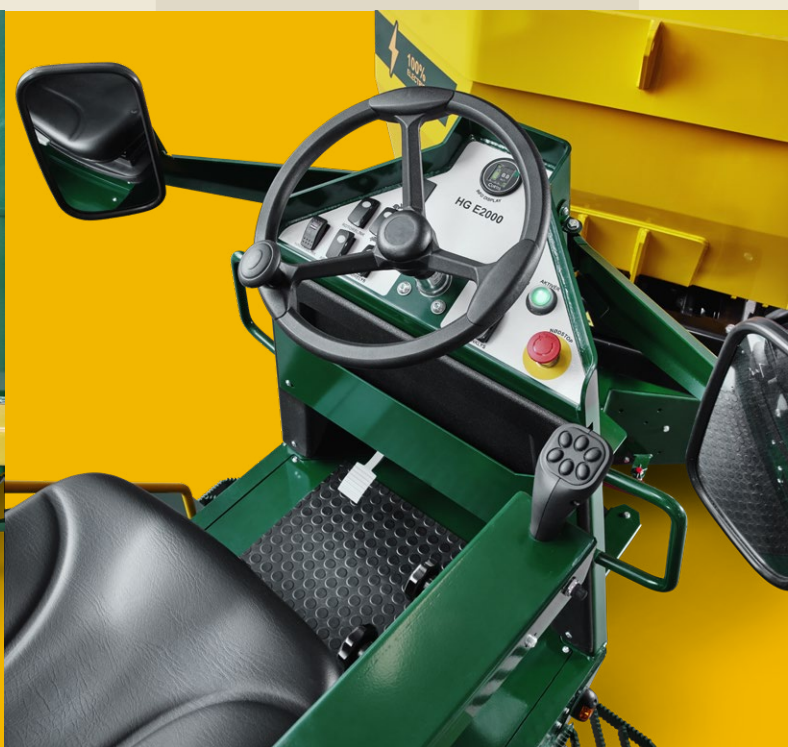

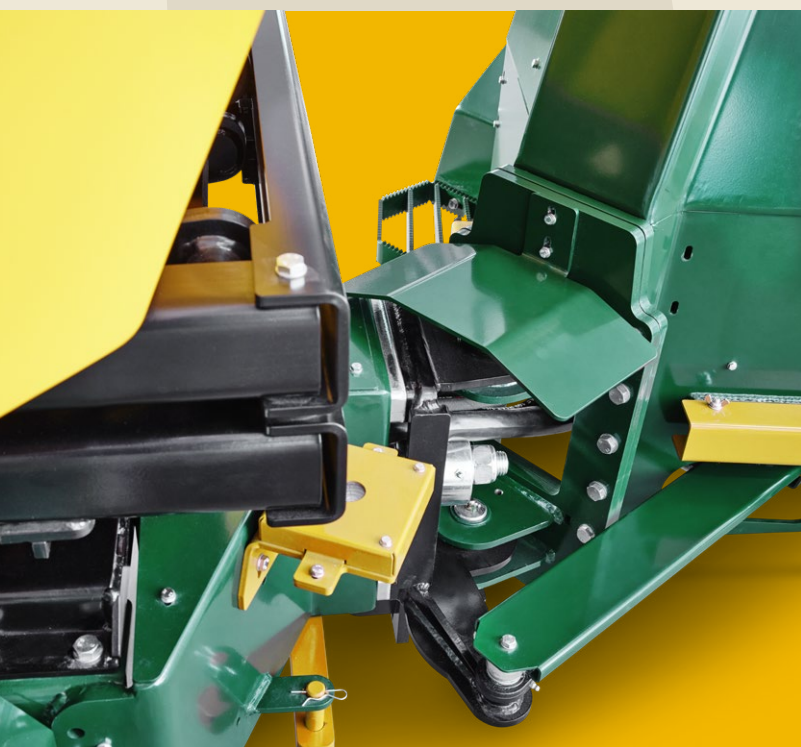

Battery:

Lithium: 17,28 kWh
Voltage: 48V
Runtime: 1 day

Charger:

Internal charger: 22 kW
160A charger / 20-80%: 2,5 hours / 0-100%: 4 hours
35A charger / 20-80%: 10 hours / 0-100%: 16 hours

HG E2000

Engine:

Type: Electric
Performance: 3kW x 4 pcs.
Moment: 41Nm - instant
Travel speed: 0-20 km/h

General function:

Tip: Hydraulic
Swivel: Hydraulic
High Tip: Hydraulic
